How do I get started?

Entry into LIFT's Exercise is Medicine program begins with a referral from your physician, physical therapist or other healthcare provider. For your convenience, a copy of the referral form is located inside this brochure.

For more information, contact the LIFT Wellness Center at 731-427-7048 or LIFTcenter@wth.org

Program Overview

One of the most important decisions a person will make regarding their overall health is to incorporate physical activity into their lifestyle. We understand that the encouragement from a physician may be the greatest influence on a patient's decision to make a lifestyle change.

Exercise is Medicine is an initiative of the American College of Sports Medicine and the American Medical Association. This program is a quick, simple, and effective process for a person to get on track to improve their overall health and well being.

Exercise is Medicine Programs

Diabetes Fitness

Osteoporosis Fitness
